## HYDROCARE WATER TESTING RANGE

**Description :** Explore our wide range of testing equipment tailored for all your needs. From ensuring fresh water safety for Legionella and potability to convenient test strips covering parameters like hardness, pH, hydrogen peroxide, chlorine, and more. For precise analysis, rely on our high-quality photometers delivering accurate readings across various parameters. Trust our expertise to meet your testing requirements efficiently and effectively.

### HC-FULL-AN-KIT

### ISO &17025 ACCREDITED WATER ANALYSIS

Legionella QTY : 3 points
Potability QTY : 3 points
Minerals  : 1 point
Sterilization : SaniSafe
Protection : 3 x sterilized gloves
Packaging : Isotherm Box
Other : Water analysis form & Ice pack

### HC-TEST STRIP

### RANGE OF TEST KIT STRIPS

Capacity : 5O & 100 strips
Test : NaCl, Th, H2O2, Cl
Concentration : >99,9%
Application : Water treatment

### HC-AS-FPR

### SILVER ION PHOTOMETER

Testing range : 1,000 mg-L
Potection : IP67
Conformity : USEPA
Application : Water treatment

# TESTING

HydroCare

## HYDROCARE WATER TESTING RANGE

### HC-IDIP-PHOTOM

**IDIP PHOTOMETER**

Bluetooth : Yes
Phone application : Apple, Android
Waterproof  : Yes (IP67)
Multilingual : Yes
Test range : 40 available (4 pre installed)
Application : Water treatment

### HC-STRIP

**RANGE OF TEST STRIPS IDIP COMPATIBLE**

ammonia, bromine, calcium hardness, chloride, free chlorine, nitrite & more
Qty : 50 strips
Application : Water treatment

### HC-AC-STRIP

**AQUACLEAN TEST STRIPS**

Range : Low (0-100ppm) High (0-10000)
Qty : Small (50 strips) Large (100 strips)
Application : Water treatment

# SOFTENER

## AQUASOFT WATER SOFTENER

**Description :** AquaSoft is a compact and efficient water softener. It uses a special cationic resin to remove the hardness from water without consuming electricity. This is the ideal choice for yachts or villas, where space and weight are at a premium. This system, is both economical and environmentally friendly.

### HC-AS3000-38

**PREMIUM WATER SOFTENER**

Pressure min-max : 2 min - 6 max
Operating  flow : 2000 L/H - Peak flow : 3000 L/H
Pressure drop : 0,5 bars
Resin volume : 2 x 3,2L
Water consumption (salt regeneration) : 2 x 16L
Regeneration time : 2 x 15mn
Box dimensions : 480 X 505 X 515 mm

### HC-AS3000-38

**PREMIUM WATER SOFTENER SALT**

Capacity : 25 KG
Material : Sodium chloride
Chemical formula : NaCl
Concentration : >99,9%
Application : Water treatment
CAS : 7647-14-5

### HC-AS-FPR

**WATER FLOW PRESSURE REGULATOR**

Nominal size : 3/4" x 3/4"
Temp range : 15°C - 225°C
Flow : 285,0 mm2
Set pressure : 1 bar
Application : Water treatment

# DISPENSERS

## WATER DISPENSERS

**Description :** AquaUnity is a compact and efficient water dispenser. Providing filtered, fresh, and fizzy hydration at your fingertips. With its advanced filtration system, enjoy crisp and clean water every time. Whether you prefer still or sparkling, this dispenser offers customizable options to suit your taste. Perfect for yachts, homes and offices, our dispenser ensures you stay hydrated with pure refreshment throughout the day.

### HC-AU-DISP

**PREMIUM WATER DISPENSERS**

Refrigeration : 3 to 210 L/H
Power supply : 180 W, 230 V, 50 Hz
Application : Water filtration
Warranty : 2 Years

### HC-DISP-TAP

**PREMIUM WATER TAP**

Form : 1, 3 or 5 way tap
Material available : Chrome, Inox
Application : Water filtration co2
Power supply : No 100% mechanical
Warranty : 2 Years

### HC-DISP-TAP-ELEC

**PREMIUM WATER TAP ELECTRIC**

Power supply : 180 W, 230 V, 50 Hz
Application : Water filtration co2
Form : 3 way tap
Material available : Chrome, Inox
Warranty : 2 Years

# DOSING SYSTEMS

## HYDROCARE DOSING SYSTEMS RANGE

**Description :** DosiCare & DosiCare+ are equipped with high-quality degassing dosing pump, designed to prevent air bubble buildup, ensure precise chemical injection, and maintain consistent flow in pressurized systems. All dosing pumps feature a full PTFE diaphragm and are very durable. The pumps are supplied complete with intake filter, injection valve, hoses and personalized mounting plates. Input : 4-20 mA, 0-10 V, Pulse, Pulse emitting water meter, Level Alarme ( optional). Features : Constant, Divide, Multiply, PPM, Batch, Volt, mA, %, ml/q. 230V

### HC-DOS-SYSTEM-50

**DOSICARE+ DOSING SYSTEM 50 L TANK**

bactericide / bacterial endospores / bacteria
anti-biofilm
fungicide / fungi
virucidal / viruses
H2O2 Ag+

| Availability tank (L) | 50 | 100 |
|---|---|---|

### HC-DOS-SYSTEM

**DOSICARE DOSING SYSTEM 10 L**

bactericide / bacterial endospores / bacteria
anti-biofilm
fungicide / fungi
virucidal / viruses
H2O2 Ag+

| Availability container (L) | 10 |
|---|---|

### HC-AC-STRIP

**AQUACLEAN TEST STRIPS**

Range : Low (0-100ppm) High (0-10000)
Qty : Small (50 strips) Large (100 strips)
Application : Water treatment
H2O2 hydrogen peroxide

# CHEMICALS

## HYDROCARE CHEMICAL RANGE

**Description :** AquaClean is a highly concentrated disinfectant H2O2 Ag+ designed for application within water systems. Its remarkable efficacy is achieved with minimal quantities, rendering AquaClean Ag+ a dependable solution for professional users. Drinking water equipment, Tank and water system disinfection, Legionella prevention.

### HC-AC50-10

### AQUACLEAN BIOFILM REMOVER AG+

bactericide / bacterial endospores
bactericide / bacteria
levurocidal / yeasts
fungicide / fungi
virucidal / viruses

Availability Packaging (L)   5   10   20

**Description :** Designed to effectively remove accumulated contaminants, minerals, and sediment from the resin bed, this cleaner revitalizes your system's efficiency and extends its lifespan. Also provides an added layer of protection by eliminating bacteria and Legionella ensuring thorough cleaning without causing damage to the resin bed or other components of your water softener. With regular use, it helps maintain peak performance, ensuring your water softening system continues to deliver softened water that is free from hardness minerals and impurities.

### HC-RC3-100ML

### RESICLEAN AG+

Resin cleaner
H202 Ag+
bactericide / bacteria
virucidal / viruses
Application : Water treatment

Availability Packaging (ML)   100   250

# CHEMICALS

## HYDROCARE CHEMICAL RANGE

**Description :** Sodium hypochlorite bleach extract 47/50° is a powerful solution used for disinfection and cleaning purposes. With a concentration of 12.5% active chlorine, it offers effective germ-killing properties, making it ideal for water treatment. This solution is utilized to maintain hygienic standards and prevent the spread of pathogens. Its high potency ensures efficient removal of stains, odors, and microbial contaminants, promoting a clean and safe environment

### HC-CL-SODIUM

### SODIUM HYPOCHLORITE

bactericide / bacterial endospores
bactericide / bacteria
fungicide / fungi
virucidal / viruses
bleach extract 47/50° & 12.5% active chlorine solution

Availability Packaging (L)    20

**Description :** Clearcure is a product that mixed with HC-pure water, removes chlorine from your water system. Clearcure is used in water systems after a choc treatment to remove chlorine from water system for it to be safe to use . It's also used to reduce the smell of chlorinated water.

### HC-CC-1KG

### CLEARCURE

Chlorine canceller
$C_6H_8O_6$ ; 176,12 g/mol
Dissolution : 8,700 L with HC-pure water
Qty : 1000g

Availability Packaging (KG)    1

# FILTRATION

## UNDERSINK WATER FILTRATION

**Description :** Innovative filteration unit. Filters water from any source without electricity and without the need for chemicals. For crystal clear water five different filters in line ensure you water is chlorine free, taste and odor free.

### HC-ACL-5FLT

### AQUACLEAR 5-STAGE FILTRATION UNIT

-Sediment removal
-Water softening and iron removal
-Chlorine and organic matter removal
-Reduces heavy metals concentration
-Bacteria and viruses elimination
-Temp max : 50°
-Fittings : QM type in-line cartridges

### HC-ACL-REP-FLT

### AQUACLEAR 5-STAGE REPLACEMENT FILTERS

-Sediment removal
-Water softening and iron removal
-Chlorine and organic matter removal
-Reduces heavy metals concentration
-Bacteria and viruses elimination
-Temp max : 50°
-Fittings : QM type in-line cartridges

### HC-ACL-ANTIFLUD

### AQUACLEAR 5-STAGE LEAKING SENSOR

-Water filtration leaking sensor
-Mechanical
-Temp max : 50°
-Fittings : 6 mm

# FILTER HOUSING

Made in France

HydroCare

## WATER FILTER HOUSINGS RANGE

**Description :** Remove fine particles from your water such as sludge, water discoloration and any other small particles. ACS certified food grade. All our filter housings come with a mounting plate and a key. When installing water filter housing, make sure that there is a pressure regulator upstream, set at 3 bar maximum, and that the filter housing is also protected from any backflow of pressure or hot water from the boiler. It is important not to expose your filter housing to heat, cold or light.

Intended for filtration : First stage of filtration system protection, Sediment-laden water, Rainwater water, Borehole water, Swimming pool & SPA, High retention capacity

### HC-FH-BIG

### WATER FILTER HOUSING, BIG BLUE 10" & 20"

Certification : Certificate of Sanitary Conformity
Material : Polypropylene reinforced, PET
Pressure max : 8,3 bars (120 psi)
Temp max : 45°
Application : Water filtration

Availability  SIMPLEX  DUPLEX  TRIPLEX

### HC-FH-STAND

### WATER FILTER HOUSING, MEDIUM 9"3/4

Certification : Certificate of Sanitary Conformity
Material : Polypropylene reinforced, PET
Pressure max : 8,3 bars (120 psi)
Temp max : 45°
Application : Water filtration

Availability  SIMPLEX  DUPLEX  TRIPLEX

### HC-FH-SMALL

### WATER FILTER HOUSING, SMALL 5" & 7"

Certification : Certificate of Sanitary Conformity
Material : Polypropylene reinforced, PET
Pressure max : 8,3 bars (120 psi)
Temp max : 45°
Application : Water filtration

Availability  SIMPLEX  DUPLEX  TRIPLEX

# FILTERS

## PLEATED CARTRIDGE FILTER

**Description :** Remove fine particles from your water such as sludge, water discoloration and any other small particles. for standard filter body ACS certified food grade. When installing water filters, make sure that there is a pressure regulator upstream, set at 3 bar maximum, and that the filter is also protected from any backflow of pressure or hot water from the boiler. It is important not to expose your filter to heat, cold or light.

Intended for filtration : First stage of filtration system protection, Sediment-laden water, Rainwater water, Borehole water, Swimming pool & SPA, High retention capacity

### HC-PL-9

**ANTI-SEDIMENT FILTER CARTRIDGE, PLEATED**

Certification : Certificate of Sanitary Conformity
Material : 100% Polyester
Dimension : 9"3/4
Temp max : 65°- 80°
Application : Water filtration

Available Micron    1  5  10  20  50  100

### HC-PL-5

**ANTI-SEDIMENT FILTER CARTRIDGE, PLEATED**

Certification : Certificate of Sanitary Conformity
Material : 100% Polyester
Dimension : 5"
Temp max : 65°- 80°
Application : Water filtration

Available Micron    1  5  10  20  50  100

### HC-PL-20

**ANTI-SEDIMENT FILTER CARTRIDGE, PLEATED**

Certification : Certificate of Sanitary Conformity
Material : 100% Polyester
Dimension : 5"
Temp max : 65°- 80°
Application : Water filtration

Available Micron    1  5  10  20  50  100

# FILTERS

HydroCare

## PLEATED CARTRIDGE FILTER

### HC-PL-10-BB

**ANTI-SEDIMENT FILTER CARTRIDGE, PLEATED**

Certification : Certificate of Sanitary Conformity
Material : 100% Polyester
Dimension : 10" BB
Temp max : 65°- 80°
Application : Water filtration

Available Micron  | 1 | 5 | 10 | 20 | 50

### HC-PL-20-BB

**ANTI-SEDIMENT FILTER CARTRIDGE, PLEATED**

Certification : Certificate of Sanitary Conformity
Material : 100% Polyester
Dimension : 20" BigBlue
Temp max : 65°- 80°
Application : Water filtration

Available Micron  | 1 | 5 | 10 | 20 | 50

### HC-NEUTRA-9

**FILTER CARTRIDGE, NEUTRALIZER**    100

Certification : Certificate of Sanitary Conformity
Material :Condensate neutralizer
Dimension : 9"3/4
Temp max : 65°- 80°
Application : Water filtration

# FILTERS

Made in France | ACS | CE | HydroCare

## SAN CARTRIDGE FILTER

**Description :** Remove fine particles from your water such as sludge, water discoloration and any other small particles with the  9-3/4 wound cartridge in SAN, for standard 9"3/ filter body 4 (248mm) ID28mm OD 21mm, ACS certified food grade. When installing water filters, make sure that there is a pressure regulator upstream, set at 3 bar maximum, and that the filter is also protected from any backflow of pressure or hot water from the boiler. It is important not to expose your filter to heat, cold or light.

Intended for filtration: Fine particles, Sludge, Sand, Dust, Pollen,Hardness, Re-mineralisation, Smell, Taste

### HC-ANTI-HARD

**FILTER CARTRIDGE, ANTI-HARDNESS**

Certification : Certificate of Sanitary Conformity
Material : Cationic resin
Dimension : 9"3/4
Temp max : 52°
Application : Water filtration

### HC-POLY-9

**FILTER CARTRIDGE, POLYPHOSPHATE**
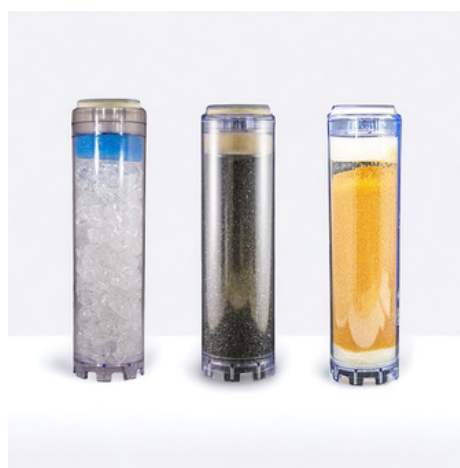

Certification : Certificate of Sanitary Conformity
Material : Polyphosphate
Dimension : 9"3/4
Temp max : 65°- 80°
Application : Water filtration

### HC-CARBON-9

**FILTER CARTRIDGE, CARBON**

Certification : Certificate of Sanitary Conformity
Material : Activated carbon
Dimension : 9"3/4
Temp max : 65°- 80°
Application : Water filtration

# FILTERS

## POLYWOUND CARTRIDGE FILTER

**Description :** Remove fine particles from your water such as sludge, water discoloration and any other small particles in Polypropylene wire, PP core, for standard filter body, ACS certified food grade. When installing water filters, make sure that there is a pressure regulator upstream, set at 3 bar maximum, and that the filter is also protected from any backflow of pressure or hot water from the boiler. It is important not to expose your filter to heat, cold or light.

Intended for filtration: Fine particles, Sludge, Sand, Dust, Pollen

### HC-PW-9

**ANTI-SEDIMENT FILTER CARTRIDGE, POLYWOUND**

Certification : Certificate of Sanitary Conformity
Material : 100% Polyester
Dimension : 9"3/4
Temp max : 65°- 80°
Application : Water filtration

Available Micron    1  5  10  20  50  100

### HC-PW-7

**ANTI-SEDIMENT FILTER CARTRIDGE, POLYWOUND**

Certification : Certificate of Sanitary Conformity
Material : 100% Polyester
Dimension : 7"
Temp max : 65°- 80°
Application : Water filtration

Available Micron    1  5  10  20  50  100

### HC-PW-5

**ANTI-SEDIMENT FILTER CARTRIDGE, POLYWOUND**

Certification : Certificate of Sanitary Conformity
Material : 100% Polyester
Dimension : 5"
Temp max : 65°- 80°
Application : Water filtration

Available Micron    1  5  10  20  50  100

# FILTERS

**HydroCare**

## POLYWOUND CARTRIDGE FILTER

### HC-PW-20

**ANTI-SEDIMENT FILTER CARTRIDGE, POLYWOUND**

Certification : Certificate of Sanitary Conformity
Material : 100% Polypropylene
Dimension : 20"
Temp max : 65°- 80°
Application : Water filtration

Available Micron | 1 | 5 | 10 | 20 | 50 | 100

### HC-PW-20-BB

**ANTI-SEDIMENT FILTER CARTRIDGE, POLYWOUND**

Certification : Certificate of Sanitary Conformity
Material : 100% Polypropylene
Dimension : 20" BigBlue
Temp max : 65°- 80°
Application : Water filtration

Available Micron | 1 | 5 | 10 | 20 | 50 | 100

### HC-PW-10-BB

**ANTI-SEDIMENT FILTER CARTRIDGE, POLYWOUND**

Certification : Certificate of Sanitary Conformity

## CARBON CARTRIDGE FILTER

**Description :** Eliminate tastes, odours, pesticides, heavy metals, chlorine present in water with the activated carbon cartridge 9"3/4, 7",5" - Anti taste and odour - for any standard filter body. Coconut carbon. When installing water filters, make sure that there is a pressure regulator upstream, set at 3 bar maximum, and that the filter is also protected from any backflow of pressure or hot water from the boiler. It is important not to expose your filter to heat, cold or light.

Intended for filtration: Tastes, Smells, Heavy metals, Pesticides, Chlorine, Benzene

### HC-ACF-9

**ACTIVATED CARBON FILTER**

Certification : ACS & European Standard EN 12915-1
Material : GAC mineral carbon
Dimension : 9"3/4
Temp max : 52°
Application : Water filtration

Available Micron   5   10

### HC-ACF-7

**ACTIVATED CARBON FILTER**

Certification : ACS & European Standard EN 12915-1
Material : GAC mineral carbon
Dimension : 7"
Temp max : 52°
Application : Water filtration

Available Micron   5   10

### HC-ACF-5

**ACTIVATED CARBON FILTER**

Certification : ACS & European Standard EN 12915-1
Material : GAC mineral carbon
Dimension : 5"
Temp max : 52°
Application : Water filtration

Available Micron   5   10

## CARBON AG+ CARTRIDGE FILTER

**Description :** Eliminate tastes, odours, pesticides, heavy metals, chlorine present in water with the activated carbon cartridge 9"3/4, 7",5" - Anti taste and odour, Ag+ BACTERICIDE - for any standard filter body. Coconut carbon. When installing water filters, make sure that there is a pressure regulator upstream, set at 3 bar maximum, and that the filter is also protected from any backflow of pressure or hot water from the boiler. It is important not to expose your filter to heat, cold or light.

Intended for filtration: Tastes, Smells, Heavy metals, Pesticides, Chlorine, Benzene, Bactericide

### HC-ACF-9-AG

**ACTIVATED CARBON FILTER AG+**

Certification : ACS & European Standard EN 12915-1
Material : GAC mineral carbon, Ag+
Dimension : 9"3/4
Temp max : 52°
Application : Water filtration

Available Micron    **5**

### HC-ACF-7-AG

**ACTIVATED CARBON FILTER AG+**

Certification : ACS & European Standard EN 12915-1
Material : GAC mineral carbon, Ag+
Dimension : 7"
Temp max : 52°
Application : Water filtration

Available Micron    **5**

### HC-ACF-5-AG

**ACTIVATED CARBON FILTER AG+**

Certification : ACS & European Standard EN 12915-1
Material : GAC mineral carbon, Ag+
Dimension : 5"
Temp max : 52°
Application : Water filtration

Available Micron    **5**

# FILTERS

## CARBON KDF CARTRIDGE FILTER

**Description :** Eliminate tastes, odours, pesticides, heavy metals, chlorine present in water with the activated carbon cartridge 9"3/4, 7",5" - Anti taste and odour - for any standard filter body. Coconut carbon. When installing water filters, make sure that there is a pressure regulator upstream, set at 3 bar maximum, and that the filter is also protected from any backflow of pressure or hot water from the boiler. It is important not to expose your filter to heat, cold or light.

Intended for filtration: Tastes, Smells, Heavy metals, Pesticides, Chlorine, Benzene, Bactericide

### HC-ACF-20-AG

**ACTIVATED CARBON FILTER AG+**

Certification : ACS & European Standard EN 12915-1
Material : GAC mineral carbon, Ag+
Dimension : 20"
Temp max : 52°
Application : Water filtration

Available Micron    5

### HC-ACF-9-KDF

**ACTIVATED CARBON FILTER KDF**

Certification : ACS & European Standard EN 12915-1
Material : GAC mineral carbon, KDF 160g
Dimension : 9"3/4
Temp max : 52°
Application : Water filtration

Available Micron    5

### HC-ACF-20-KDF

**ACTIVATED CARBON FILTER AG+**

Dimension : 9"3/4
Temp max : 52°

Available Micron :   CARBON  5M & ANTI-SEDIMENT 20M

### HC-ACF-DUO-7

**ACTIVATED CARBON FILTER DUO**

Certification : ACS & European Standard EN 12915-1
Material : GAC mineral carbon
Body wrap : Polypropylene
Dimension : 7"
Temp max : 52°

Available Micron :   CARBON  5M & ANTI-SEDIMENT 20M

### HC-ACF-DUO-20

**ACTIVATED CARBON FILTER DUO**

Certification : ACS & European Standard EN 12915-1
Material : GAC mineral carbon
Body wrap : Polypropylene
Dimension : 20"
Temp max : 52°

Available Micron :   CARBON  5M & ANTI-SEDIMENT 20M

# SPARES

HydroCare

**Description :** Timestrip is a highly reliable time indicator designed to help you keep an eye on how long your cartridges have been in use. It's very easy to use, just stick it to your filter holder using its self-adhesive strip (3M) (be careful not to install it on the bowl or tank) and press the button to release the chemical, which will take 6 months to fill the white surface. **Do not stick the Timestrip to the bowl**

## HC-REP-FLT
